

Fundraisers and Sales of Goods

Relating to the Quality of Community Life on Sunday Mornings
November, 2009

Approved by Program Commission, November 16, 2009

At CMCL we view the Parrot Café and other common spaces as places where people fellowship and gather as a community. Developing relationships and community building are important to us.

In order to ensure that these ends are met, Program Commission offers the following guidelines:

1. Common spaces are available at all times for conversation, dialogue and reflection.
2. Information and resources consistent with the mission of CMCL may be made available in these spaces based on programming and interests within the congregation. Persons interested in sharing such resources should check with the church office.
3. Regular attenders may hold fundraisers for activities that directly involve or are in the interest of the congregation. All fundraisers should be coordinated through an appropriate committee or Program Commission.
4. Common spaces will not be used for buying and selling goods or services that are not related to a committee-approved fundraising activity.
